Hiya!

Just an avid artist with a degree in animation and game design, though my specialty is illustrations. I'm a very hands-on type of person - if I'm not illustrating, I'm always tinkering and working with my hands be it crafts (everything from decor to plushies to clothes - if I can customize it, I will); brewing up new tea and coffee blends and baked goods; problem solving and fixing random things around the house; playing video games; or relaxing petting my rabbit, Poppy.
